

Welcome to the West Acton Citizens' Library

Seed Library and Exchange!

- 1. Pick up your free seed packets and growing instructions at the West Acton Citizens' Library**
- 2. Take them home and grow them in your garden**
- 3. Harvest seeds from the produce and thoroughly air dry them**
- 4. Place them in the envelopes provided, label and return to the library so others can grow them next year**

All library seeds are from Johnny's Selected Seeds in Maine and are New England hearty.

We also take in orphan seeds from local gardeners who have extras and make those available to gardeners who need extra.

Check out what seed we have available and as well as our collection of books on starting and saving seeds.

Think Spring!
